

deeply pained to learn, has become so feeble that there is little ground for hope that he could any longer be able to do his duty as a minister of the Gospel. His constitution was wholly broken down by the long and arduous labors of the last year. His remaining strength has been slowly fading away. Some time since, he went to New York, hoping to be able to spend some time in traveling, and to visit his friends. He has been disappointed, however, in his friends, soliciting that he shall have ever so long as he may need it, has proposed to him to visit him in England. As this would be the best opportunity that will be afforded for administering to his wants, we hope that now we will find it an imperative as well as a grateful something for one so deserving of their administrative sympathies. His duties may be sent to Mr. Rogers, of Boston.

AGITATION IN GULLO—It gives us pleasure to learn that the friends of the American Colonization Committee, are making arrangements for a vigorous agitation of the Slavery question during the coming year. They propose to send petitions to Congress and the Legislature of the several States, and to circulate tracts in every County and town, to extend the circulation of newspapers, to circulate standard Anti-Slavery

to be made of libraries and archives, to publish by means of printing agencies, to publish and to disseminate, to be impetuous in the work of diffusing Anti-Slavery tracts to the people, but we are heartily glad to see this vitality among the political Anti-Slavery men and hope their efforts may be crowned with success.

A PERTINENT QUESTION—Not long since a New York and New Jersey, by a solemn treaty, were turned into the hands of Providence to abolish slavery! A correspondent of the *South* writes: "The project of transporting the free country to Africa was included in that the negro question to Divine Providence; as 'We' would not Divine Providence he quite as good as say, 'We' would not Divine Providence, without human interference should like to know if Divine Providence is competent to convert the heathen without the Presbyterian Church?"

CHAP OCEAN POSTAGE—Eliza Burritt returned from Europe, is now organizing to secure the transmission of letters across the ocean by the telegraph. The project of the object was lately held in Faneuil Hall under the auspices of several leading citizens which learn that Mr. Burritt is coming to give meetings in this city and Philadelphia. To the friends of the cause, it is a subject of no less than the highest interests of society.
